Supplies:

- ① Base panel with pre-assembled stands
- ② Racks (2 pieces)
- ③ Stabilisation panel
- ④ Caps (8 pieces)
- ⑤ Allen screws (4 pieces, 6x14)
- ⑥ Countersunk screws (2 pieces, 6x25)
- ⑦ Allen screws (2 pieces)
6x20 for floor bracket stand RL906
8x20 for floor bracket stand RL904

Instruction sheet

Illustration 1:

- Mount both racks ② to the base panel ①; please make sure that the major drill holes point outwards
- Thereafter, adjust the stabilisation panel ③ between the racks ② and screw down the socket-head cap screws ⑤ slightly

Illustration 2:

- Subsequently place the studio speakers on the floor and fit them to the racks ②; the screws ⑦ should be tightened after the complete mounted rack is built together
- Put up the studio speakers and assembled stand and finally, tighten the screws ⑤ & ⑦
