

håkan P110

pop killer

The **Håkan P110 Pop Killer** from Swedish microphone specialist mikrofonen.se is a very special pop killer that is specifically designed to effectively prevent plosives (pops) and, at the same time, to eliminate the audible colouration that other pop filters often display. It is extremely effective in killing pops without compromising the frequency response and character of the microphone.

The foam used in the P110 was carefully researched to maximise pop protection and minimise colouration - the specially selected foam is "hydrophobic" - this means that it will not absorb water. So moisture from the breath will not be absorbed by the foam and therefore does not stay on the filter to distort and colour the sound; it also makes it easy to clean.

Usage Notes:

Like any pop filter, the Håkan Pop Killer needs to have some space between it and the microphone to work effectively.

Model	Description	UK Price - £			
		excl. VAT	Inc. 20% VAT		
The P110 Pop Killer is delivered as standard with a black frame (with the exception of the Brauner version, which is a silver colour). The hydrophobic foam filter is 11cm in diameter and 20mm thick.					
	P110 Universal	Version with a 3/8" microphone thread for fitting to a microphone stand or gooseneck	£40.00	£48.00	
	P110 Gooseneck Std. clamp	Version with an integral gooseneck with a 3/4" clamp for attaching to a standard microphone stand - gooseneck is 33cm long excluding clamp	£40.00	£48.00	
	P110 Gooseneck 1" Clamp	As above, but with a clamp for larger microphone stands with a diameter of up to 1"	£40.00	£48.00	NEW
	P110 Gefell EH93-P	Gefell Version with an integral clip to fit the EH 93-P shockmount - this version is suitable for the Microtech Gefell M930, M940 & M950 microphones and allows the microphone and pop killer to be rotated in the mount (pictured at the top with EH93-P shockmount and microphone)	£40.00	£48.00	
	P110 Gefell Ts	Gefell Version with an integral clip for the M 930 Ts microphone in the EH 93-P shockmount - this version is also suitable for the Microtech Gefell M930, M940 & M950 microphones in the EH 93 (non -P version) shockmount (NB: the microphone and pop killer cannot be rotated in the non -P mount).	£40.00	£48.00	
	P110 Brauner	Brauner Version with an integral clip that attaches the P110 to the elastic suspension of the Brauner Phantom microphone	£40.00	£48.00	
	P110 Neumann BCM	Neumann BCM Version with an integral clip that attaches the P110 to the Neumann BCM 104 or BCM 705 broadcast microphones	£40.00	£48.00	Recently Introduced
	Gefell INV-7HG version	INV-7HG version - this is a special version of the P110 designed to attach to the Rycote INV-7HG III suspension for use with the Gefell UMT 70S or MT 71S microphones (this is a special version from Microtech Gefell - hence the higher price)	£100.00	£120.00	Recently Introduced
	P110 INV-7HG-V version	INV-7HG-V version - this version of the P110 is designed to attach to the Rycote INV-7HG III suspension orientated vertically, for use with the Gefell UMT 70S or MT 71S microphones	£40.00	£48.00	NEW
	P110 INV-7HG-H version	INV-7HG-H version - this version of the P110 is designed to attach to the Rycote INV-7HG III suspension orientated horizontally, for use with small diaphragm condenser microphones	£40.00	£48.00	NEW
	Gooseneck	Optional gooseneck with 3/8" male and female microphone threads for the P110 Universal version	£18.00	£21.60	
	P110 Foam	Spare / replacement "hydrophobic" foam pop killer pad for all P110 versions	£12.00	£14.40	

This price list supersedes all previously issued price lists.

Prices are ex-works. Delivery charged extra.

Payment is required prior to shipment unless specifically otherwise agreed.

Manufacturer reserves the right to make changes/improvements without prior notice.

Title to the goods remains with the seller until the goods are paid for in full.
